

Made with Wabash No. 1 Flashbulb . . . f:9
on Panatomic X Film

Capture Fleeting Expressions with **ARGOFLASH**

You can take pictures like this—sparkling, intimate flash shots—indoors or out.

Argoflash is always ready—uses inexpensive flashbulbs—is factory synchronized. It's color-corrected f:6.3 lens produces needle-sharp negatives in black and white—or beautiful transparencies in full COLOR. Without the flash you have a fine American-Made camera for daytime snaps.

MODEL AA

With factory-synchronized flash, universal focus, color-corrected f:6.3 lens. Takes 35 mm. film—black and white or Kodachrome.

\$12⁵⁰
